PERFIL / PROFILE

Desarrollador de software con conocimientos en diversas áreas del desarrollo, me apasiona crear software y crear soluciones a problemas, me gusta apoyar y dar ideas que creo que pueden ser útiles para los desarrollos. Me gusta especializarme en ramas de desarrollo como Backend utilizando lenguajes como Python y JavaScript. A lo largo de mi carrera he desarrollado productos FullStack que han contribuido a la comunidad de desarrollo.

Software developer with knowledge in various areas of development, I am passionate about creating software and creating solutions to problems, I like to support and give ideas that I think can be useful for developments. I like to specialize in development branches such as Backend using languages such as Python and JavaScript. Throughout my career I have developed FullStack products that have contributed to the development community.
